

MANHOLE COVER

KENBRO 24'X18' 5TONNE POLYESTER BASED
MANHOLE COVER WITH FIBER REINFORCEMENT

Description

Kenbro 24X18 5T manhole cover is manufactured using special polyester resin which is UV resistant and is reinforced using special fiber glass Matt and can withstand medium traffic of up to 5tonnes.

Advantages

- Long lasting not affected by weather as is the case with metal rusting
- Easy handling low weight
- No resale value hence no vandalism
- Good finish also available in different colors on request

Application

Foot paths, residential areas and roads with medium traffic
