

# Kenbro Manhole covers

5T, 20T & 40T polyester based triangle manhole covers with fiber reinforcement

## Description

Kenbro Triangle manhole cover are manufactured using special polyester resin which is UV resistant and is reinforced using special fiber glass Matt.

## Use

KENBRO triangle manhole can be used:

- Residential areas
- Public roads

it is suitable for areas that have both heavy and medium traffic

## Advantages

- Long lasting not affected by weather as is the case with metal rusting
- Easy handling low weight
- No resale value hence no vandalism
- Good finish also available in different colors on request
